Product Name: UNIVERSAL UNDERCOAT

Generic Type: Long oil modified alkyd.

General Description: Specially formulated to be used both as a primer and undercoat. Have good adhesion, build, coverage and hold-out.

Recommended Uses: For new and unpainted wood and building boards (i.e. plywood, chipboard, hardboard, etc.) for subsequent over coating with oil-based, alkyd or emulsion top coats.

Features/Benefits:
- Good Opacity
- Combines primer and undercoat in one
- Good holdout of topcoats
- Good filling properties

Directions for Use:
To all knots, apply 2 thin coats Kaleidoscope Knotting Varnish. Then apply 1 coat Kaleidoscope Universal Undercoat.

Suggested Primer:
Not Required
