**Product Name:**
WEATHER MASTER EXTERIOR EMULSION

**Product Code:**
D 204

**Generic Type:**
Acrylic Co-polymer emulsion resin

**General Description:**
A unique emulsion formulated specifically to withstand the harsh effects of tropical weathering. With excellent flexibility to resist cracking, peeling, & flaking. Has good scrubability & obliterating properties and excellent colour retention. Also excellent fungus and algae resistance.

**Recommended Uses:**
Specially for exterior brick, concrete and cement rendered walls. Also suitable for appropriately primed exterior metal surfaces

**Features/Benefits:**
Abrasion resistant, Excellent adhesion, Water repellent, Mildew resistant on stain film, Provides UV protection, Excellent colour retention

**Limitations of Use:**
Apply when air, surface and product temperatures are above 10°C and a surface temperature reach at least 3°C above the dew point. Avoid exterior painting late in the day when dew and condensation are likely to form or if rain is threatening. Protect from freezing. Allow 24 – 48 hours drying time for light foot traffic or furniture placement. Newly stained surfaces should be allowed 30 days before washing.

**No. of Coats:**
1 or 2

**Coverage (per coat):**
10-13 sq. m. per litre
110-145 sq.ft. per litre
Depending on porosity and texture of the surface

**Drying Time:**
Touch Dry 15 mins
Over-coat 1 hr.

**Application:**
Brush, roller or spray.
Thin up to 15% for spraying

**Gloss:**
Eggshell

**Colour:**
18 Standard Colours.

**Thinner/Cleaner:**
Water

**Flash Point:**
Not applicable

# General Surface Preparation:

**New and Unpainted:**
Ensure surface is dry and free of all dust, dirt, oil, grease, mortar splashes, moss, algae and other debris.

**Masonry:**
Poured concrete must be allowed to cure for at least 60 days, while cement/plaster rendering should be for 30 days. Fill any defects with an appropriate masonry filler.

**Metal:**
Clean to Hand Tool finish SSPC-SP-2 or Power Tool finish SSPC-SP-3.

**Previously Painted:**
Remove any loose, flaking, peeling and semi-adherent paint to obtain a clean, firm, sound surface. Fill surface defects and treat as for New & Unpainted.

**Treatment for Algae & Fungus Infection:**
Use water to wash affected areas thoroughly. Dilute 1 part Domestic Bleach with 1 part water and apply liberally by brush or sponge to the areas. Follow with one application of Kaleidoscope Sterilising Solution and allow to dry overnight.

## Directions for Use:

**New and Unpainted:** Apply 2 coats
- **Masonry** - Kaleidoscope Concrete Primer
- **Iron and Steel** - Kaleidoscope Zinc Chromate Primer
- **Aluminium, Galvanize, Zinc** - Kaleidoscope Etch Primer.

Followed by 2 coats Kaleidoscope Weather Masta Exterior Emulsion.

**Previously Painted:** Apply 1 coat
- **If powdery residues exist after cleaning** - Kaleidoscope Penetrating Liquid
- **On old gloss paint** - Kaleidoscope Universal Undercoat
- **On bare metal areas** - Appropriate Kaleidoscope Metal Primer
- **Then over entire surface** - 1 or 2 coats Kaleidoscope Weather Masta Exterior Emulsion.
