### Product Name:
**PENETRATING LIQUID**

### Product Code:
D 315

### Generic Type:
Long Oil alkyd

### General Description:
A thin low viscosity resin solution having a very good penetrative ability to bind powdery residues to provide a satisfactory base to accept further coats of paint.

### Suggested Primer:
Not Required

### Recommended Uses:
As a pretreatment on exterior or interior surfaces where powdery residues remain after scraping and wire-brushing of old friable lime-wash, oil-bound distemper or emulsion paint.

### Features/Benefits:
- Excellent binder for “chalking” walls
- Extends the life for topcoats

### Directions for Use:
Apply 1 coat of Kaleidoscope Penetrating Liquid. **Do not thin.**

Not for use directly on new/unpainted cement - base or other alkaline substrates, or areas affected by efflorescence.

### Product Data:
- **Coverage:**
  - 9 - 11 sq.m. per litre
  - 95 - 120 sq.ft. per litre
- **Drying Time:**
  - Touch Dry: 3 – 4 hrs.
  - Over Coat: 16 hrs
- **Application:**
  - Brush or roller.
- **Gloss:**
  - Glossy
- **Colour Range:**
  - Clear
- **Thinner/Cleaner:**
  - Kaleidoscope Thinner 2000
- **Flash Point:**
  - 39°C (102°F)

### General Surface Preparation:
All previously painted surfaces must be free of all dust, dirt and debris. Thoroughly remove all flaking, semi-adherent, peeling and loose paint.
