**Product Name:** ROAD MARKING PAINT  
(Non-Reflective and Reflective)

**Generic Type:**  
Oil modified Chlorinated Rubber

**General Description:**  
A fast drying coating having excellent adhesion to asphalt and concrete surfaces and very durable wearing properties to traffic. Good resistance to gasoline, oil and mild chemicals. Non-bleeding on asphalt. Reflective type contains micro glass beads for enhancing visibility at night.

**Recommended Uses:**  
For line-marking roads, car parks, play grounds, airfields, kerbs, driveways, parking lots, sidewalks etc.

**Features/Benefits:**
- Excellent Adhesion
- No tracking after 30mins
- Abrasion resistant
- Resistant to oil, gasoline and other chemicals
- Weather resistant

**Limitations of Use:**  
Apply only when air and product temperatures are above 10°C and at least 5°C above the dew point.

**Product Code:** I 121/122

**Suggested Primer:** Not Required

**Product Data:**

| Solids Volume: |  
| I601 Reflective | 52%  
| I602 Non-Reflective | 46%  

| Film Thickness(per coat): |  
| Wet | 135 microns (5 ½ mils.)  
| Dry | 70 microns (2 ¾mils.)  

**No. of Coats:** 1

**Coverage(per litre):**  
6 - 8 sq.m. @ 70 microns d.f.t.  
65 - 85 sq.ft. @ 2 3/4 mils. d.f.t.

**Drying Time:**  
Touch Dry 10 mins.  
Hard Dry 30 mins.

**Colour:**  
White & Yellow

**Gloss:**  
Matt

**Thinner/Cleaner:**  
Kaleidoscope Thinner 2003

**Flash Point:** 13°C (55°F)
General Surface Preparation:

Ensure the surface is dry and cleaned free of all dust, dirt, oil, grease, loose and semi-adherent old paint and other debris.

Directions for Use:

Apply 1 coat Kaleidoscope® Road Marking Paint, as thickly as possible, using a large brush.

N.B. The use of spraying or roller-coating machines will require thinning, depending on machine.

Stir thoroughly before use and frequently during use.
